## **P26 147 UPDATES ON MAJOR DEVELOPMENTS**

The following updates were **NOTED**:

### **Airfield**

No updates.

### **Aston Road (Dandara)**

Spring maintenance work has started on site and photographs of the cricket pitch maintenance work undertaken by Dandara's contractor have been shared with the Parish Council.

### **Land West of Churchway (Redrow)**

Councillors and the Clerk met with the planning and highways officers to raise concerns about the removal of the pedestrian and cycle link in the south-west corner of the reserved matters application. The planning officer explained it had been taken out because it wasn't shown on the outline plans and in her opinion the dispute was not there for legal challenge if included on the reserved matters. The Parish Council asked for advice on how this essential connection could still be secured, and a record of the meeting has been shared.

### **Land East of Churchway (Greencore)**

The chair invited the Greencore representative to run through the amendments made to the planning application for this development. The following points were raised by Ness Scott concerning changes made within the reserved matters application ([25/02312/ADP](#)):

- 1) Better integration into the village: A more direct footpath has been placed in the SW corner.
- 2) Render wall with red tile capping: These now total 19no, to all boundary walls fronting the street.
- 3) Suggested cycle route: More natural 'diagonal' cycle route from the main entrance to the south east corner and the bridleway.

- 4) Addition of 7 visitor spaces to supplement tandem parking.
- 5) Improved street connectivity with private drives removed and new shared-surface/footpath links added.
- 6) Parking bay widths and clearances, turning spaces and refuse drag distances all checked and fully compliant.

The following questions were asked by the Committee:

- 1) Are the new walls finished in timber cladding/render finish still going to ensure the houses are 'better than net zero'?
  - Answer by Greencore representative: Yes, as the 'better than net zero' calculation is completed as a total.
- 2) Where will the surface water drainage go?
  - Answer by Greencore representative: The water will enter the SE and SW ditchways.

### **Dollicott (rear of Carwithen Close)**

Land Improvement Holdings have submitted a comment to the consultation on the amended plans for phase 2 of the Land West of Churchway. The amended plans have removed the connection to the pedestrian path that has been conditioned in the approval of this application.

### **Land at Station Road**

No updates.

### **Lower Road.**

No updates.

## **P26 148 PROJECT UPDATES**

The following project updates were **NOTED**:

### **New burial ground Aston Road**

The Parish Council are waiting for a copy of the officers report on the reserved matters planning application as this is unavailable online – this request was submitted on 20<sup>th</sup> February 2026. The officer who wrote the report has since left and it is unknown where the report was saved.

### **Aston Road Pavilion**

The pre-qualification period on Find a Tender for the pavilion construction closed on the 11<sup>th</sup> March 2026. The assessment of applicants is underway to select contractors suitable to take forward to the full tender process.

### **Banks Cottage Extension**

The pre-qualification period on Find a Tender for the extension to the cottage closed on 1<sup>th</sup> March 2026. The assessment of applications is underway to select contractors suitable to take forward to the full tender process.

### **Village Hall Improvements**

No updates.

### **Future Haddenham**

The Clerk and Cllr Truesdale met with the Neighbourhood Plan team from Bucks Council to discuss the implications the recent publication of the New and Extended Settlement Study (NESS) for the Local Plan for Bucks will have on the Parish Council's decision to take the scenario planning work carried out at the end of 2025 forward to a new neighbourhood plan based on scenario 3 'maximising railway links'. It is clear that the strategic growth proposed in the NESS is beyond what can be covered in a neighbourhood plan.

Their advice was as follows:

- 1) Make sure we comment on the current consultation and raise as many issues as possible using our current knowledge.
- 2) Make sure we submit the same to the Reg 19 consultation so we get involved in the process.
- 3) Keep an eye on the appeal at Buckingham which is a key test of §14 holding up for a new neighbourhood plan, in light of recent decisions elsewhere.
- 4) It could be worth progressing to a neighbourhood plan without any housing allocation, or just a small site allocated. We would need to allocate something to trigger §14.
- 5) We could use the plan to:
  - a. Emphasise design, housing mix.
  - b. Implement streetscape projects.
  - c. Protect the conservation area with reference to the recent update that includes a management plan for the conservation area.
  - d. Increase the Community Infrastructure Levy (CIL) contribution paid to the Parish Council to 25% from 15%.
  - e. Set green and blue corridors through a Settlement Spatial Plan.

The Parish Council will need to consider the benefits of proceeding with the neighbourhood plan as the policy framework in which it will sit is now significantly changed.

#### **P26 149 SPEEDWATCH REPORT**

A report was delivered by Jane Blagden and Linda Fischer: During last week (9th - 15th February), we planned 5 sessions - but due to adverse weather (cancellations) and some technical issues, we only uploaded data for 2 sessions. The weather was overcast for those sessions and our volunteers logged a total of 27 vehicles travelling over 35 mph, fastest was 54mph. Total passing vehicles counted during the 2 sessions was 350 vehicles. The percentage of speeders on Stanbridge Road / Garden centre, going South during the session on 09/02 is calculated at 13%. The percentage of vehicles speeding on Pegusus Way Road during the session on 11/02 is much lower, at 1%. As previously advised, the MVAS (Moveable Vehicle Activated Sign) equipment has been deployed on Aston Road, but data download is incomplete due to a software issue with the MVAS unit. The supplier has been contacted and they are working to rectify the issue. We have been assisting Stone and Bishopstone to train their Community Speedwatch volunteers, so that they can successfully deploy the Speedwatch Camera in their village hot spots. Ian at Haddenham Parish Council is managing the bookings for the equipment, to ensure the planned sessions run smoothly. As usual, thanks are due to our band of volunteers for keeping a visible presence in the village, especially in the wintry weather!
